CLIENT TESTIMONIALS

“Mid-wicket team managed one of our very first internal cricket tournament. The planning and execution, I must say, was meticulous. This included everything from booking the turf to managing the presentation ceremony. We have always been looking for a set-up that can help take away the worries of planning and manage fun for our employees. Mid-wicket is the perfect solution. Cheers and wish them all the best.”

Mohit Bedi | Axis Bank

“We had appointed midwicket to organize turf cricket tournament for our organisation. Since it was a big event for us we needed someone with good management skills and great passion for the sport. Earlier in the month I had seen these men in action in some other tournament and was convinced midwicket was the right enterprise to rely on. Most of us playing the tournament with hardly any pro cricketing qualities and sheer unprofessionalism had many changes going into the tournament. Like multiple player changes, Jersey size changes, food menu changes, etc. I must say these guys managed it all with a smile and never said no to anything we needed.

About 105 players and around 80 guests none went home with any regret, besides of course some of is not making the finals.

For us in future if we plan any such cricket tournaments, midwicket will be our first choice.
